### Lower Cook Inlet Salmon Fishery News Release #3

**SOUTHERN DISTRICT:** Within the Southern District, waters of the Barabara Creek Subdistrict, the Tutka Bay Subdistrict, the Halibut Cove Subdistrict and the Seldovia Bay Subdistrict will open to commercial salmon set gillnet fishing for the 2013 season at 6:00 am on Monday, June 3 for a 48-hour period. Commercial fishing periods will continue on a regular schedule of two 48-hour fishing periods per week, from 6:00 a.m. Monday until 6:00 a.m. Wednesday, and from 6:00 a.m. Thursday until 6:00 a.m. Saturday until further notice. Waters of the Port Graham Subdistrict, including both the Port Graham and English Bay sections, will remain CLOSED to commercial salmon set gillnet fishing until further notice as a precautionary measure to protect sockeye salmon returning to English Bay lakes. These areas may open to commercial harvest when spawning escapement levels are clearly tracking to meet the sustainable escapement goal (SEG) for English Bay Lakes as well as provide for a subsistence harvest.

The SEG for the English Bay River is 6,000-13,500 sockeye salmon. Total escapement last year (2012) was below this with 3,985 counted at the weir. Through May 29 of this year, a total of 38 sockeye salmon had been counted at the English Bay weir since installation on May 26. Below are graphs showing actual passage versus minimum passage at the weir to achieve the minimum SEG of 6,000 fish.

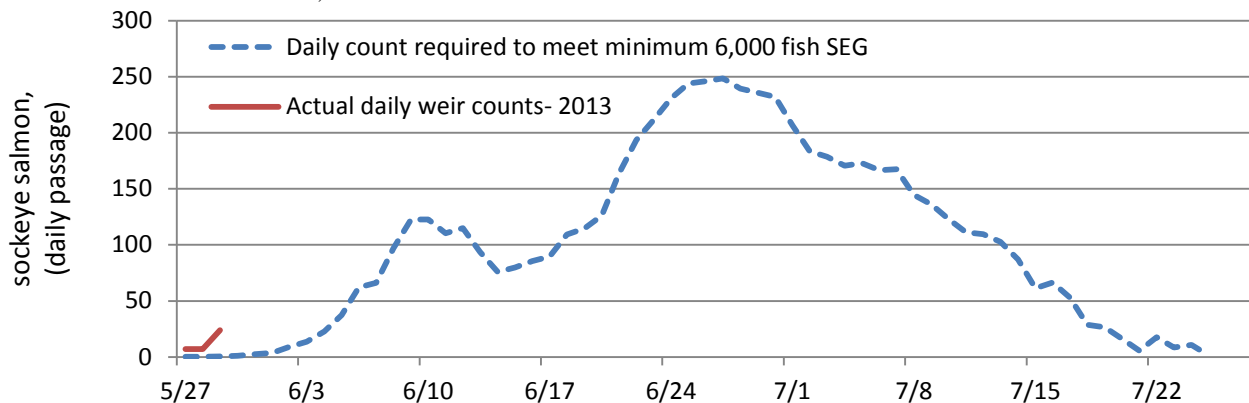

Figure 1.- Actual passage vs. minimum passage per day at the English Bay weir to achieve 6,000 fish minimum SEG.

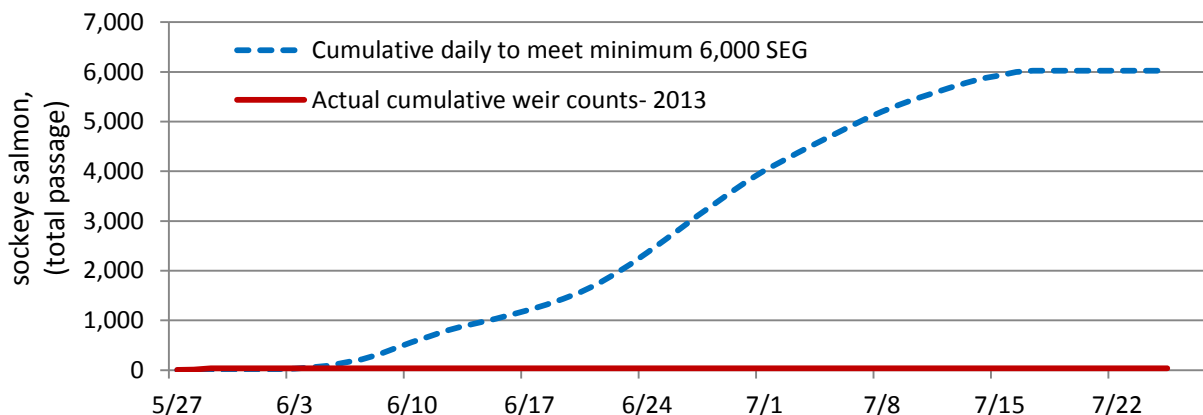

Figure 2.- Minimum **TOTAL** passage at the English Bay weir to achieve 6,000 fish minimum SEG vs. actual passage.

**EASTERN DISTRICT:** Cost recovery harvest of returning hatchery produced sockeye salmon in Resurrection Bay began on Monday, May 20. As of 6:00 PM, Wednesday, May 29 a total of 2,690 sockeye salmon have been caught. This compares to an anticipated 10,828 for this date based on historic run timing and an anticipated return of 71,000 fish. All other commercial salmon fishing in the Eastern District remains CLOSED.

**KAMISHAK BAY DISTRICT:** In the Kamishak Bay District, all waters, with the exception of the McNeil and Paint River subdistricts, will open at 6:00 A.M. on June 1 to commercial salmon seining seven days per week, until further notice. The McNeil and Paint River subdistricts are being closed early as a precautionary measure specifically to protect sockeye salmon returning to Mikfik Lake.

Closed waters as established by emergency order 2-F-H-001-13 on May 1, 2013 are listed below:
